

## About KAMAKURA

Kamakura, 1 hour by train from Tokyo, was once the seat of a feudal government established in 1192 as the first of its kind in Japan. It is now noted for its historic sites, seaside bathing beach, and residential district within commuting distance to Tokyo.

Flanked and fortified by wooded mountains on three sides and Sagami Bay on the south, the city has many renowned temples and shrines as well as well-preserved historical treasures surrounded by beautiful hills in a rustic setting. Exploring on your own is the best way to enjoy a tour of Kamakura.

The Great Buddha, the magnificent Tsurugaoka Hachimangu Shrine, Zen temples and picturesque Enoshima Island draw large numbers of visitors to Kamakura throughout the year.

## Welcome Note

Dear Colleagues,

As local host and Chairperson for the 6th JAPAN-ASEAN Conference on Men's Health & Aging, it is my special pleasure to invite you to Kamakura, Japan in June 30th - July 3rd 2011. This conference will present new frontiers in men's health and aging, based on the biological, physiological, pathological and therapeutic evidence. The program is designed for physicians and other healthcare professionals interested in the many aspects of men's health and aging.

Our theme "Spreading Men's Health" aims at discussing and debating unresolved issues of men's health with leading experts from ASEAN countries and Japan. A major goal of the conference is therefore to facilitate and reinforce contact and networking among researchers and healthcare professionals.

The conference will be held in Kenchoji Temple, which is located in the city of Kamakura. Kamakura is a beautiful coastal town, less than an hour south of Tokyo. Kamakura, the medieval capital of Japan, has numerous temples, shrines and other historical monuments. Kenchoji is the oldest Zen temple in Kamakura, which was founded in 1253.

We expect to stimulate extensive scientific exchange as well as creating a pleasurable and memorable occasion for social interactions.

We look forward to an exciting event in beautiful Kamakura.

*Shigeo Horie*

Prof. Shigeo Horie  
Chairperson  
On behalf of the Organizing Committee
